3. Dispense APICAL Foodie™ into your spray system of choice;
5. Apply evenly to ensure full coverage, four weeks before harvesting;
6. Re-apply two weeks before harvesting.

## SIMPORI

### IMPORTANT INFORMATION

Always wash fruits and vegetables prior to consumption, irrespective of their origin. Avoid spraying during strong winds to prevent waste . Store APICAL Foodie™ at 4-15°C.

### INGREDIENTS

The APICAL Foodie™ powder mix contains mineral elements (1% Nitrogen, 0.2% Phosphorus, 0.15% Potassium and Calcium, 0.03% Iron, 0.003% Manganese and Magnesium, 0.002% Zinc), essential amino acids, lipids, carbohydrates and one beneficial bacterial species. Water bottles and drums contain sterile water free of sediments, chemicals, bacteria, protozoa and parasites. When APICAL Foodie™ cells are added to the pure water, they become activated and prone to protect fruits and vegetables.

## POST-harvest coat

### PROCESSING FACILITIES

1. Use 500 ml of APICAL Foodie™ per 18 kg of produce;
2. The solution supplied is ready-to-use;
3. Apply evenly to ensure full coverage;
