PROFILE:

I am a student of the last semester of Chemical Engineering of the University of La Sabana (Colombia) and to obtain my Chemical Engineering degree, I must do a semester of professional practice. At the moment, I am studying English and looking for a possibility to do my internship in Australia, with the objective of increasing my personal and professional forecast. As far as my character is concerned, I have competencies in leadership, teamwork, assertive communication and analytical skills. In addition to my internship responsibilities I am eager to fulfil other tasks to add support to the business. I would be grateful for an opportunity and all ensure I add value.
